

**INVENTION DISCLOSURE FORM**  
**(Confidential Document)**

1. **Title of the Invention:**
  
2. **Name, address and contact details of the Inventor(s):**
  
  
  
  
  
  
  
  
  
  
3. **Name, address and contact details of the Applicant(s):**
  
  
  
  
  
  
  
  
  
  
4. **Relationship between the inventor(s) and the applicant(s), in case they are different:**
  
5. **Name of Project under which it has developed**
6. **Date of Start of Project**
7. **Name of Sponsoring Agency, if any**
8. **Details/copy of MoU, if any**
9. **Date of the Invention**
  - a) **Provide the date** when invention was first conceived.
  - b) How is this date documented?
  - c) Are laboratory records and data available? Cite lab notebook reference & page number & physical location
  
  
  
  
  
  
  
  
  
  
10. **Search Terms** (Please provide key words and common industry phrases on the basis of which this invention could be connected with the prior art):
  
11. **Field of Invention ( Area of Invention)**
  
  
  
  
  
  
  
  
  
  
12. **Objective of Invention ( Purpose)**

**13. Brief description of the Invention** (Please describe the invention in 3-4 paragraphs covering what exactly has been invented, its working, field of technology, purpose, what problem it solves, features and benefits of this invention) (Please add extra pages if required):

**14. Novelty of the Invention/Inventive Step of the Invention** (Please state the unique aspects of your invention and how it is different and/or better than the existing technologies):

**15. Technical Description of the Invention** (Please provide technical data covering results produced by the invention, its technical description and experimental data and please attach any relevant sketches, diagrams, drawings, photographs or other illustrative material):

**16. Disclose the parts or (steps if a method) make up the invention, in its best/preferred form:**

**17. Prior Art** (Please provide the details of the product or process by the help of which the problem solved by the invention was tackled before this invention. Please also include any available publications, published patents and other publicity material) (if required, Please add extra pages):

**18. Status of the Invention** (Please describe the current status, i.e. conceptual form, laboratory testing stage, prototype or final process/product, of the invention):

**Final Product of invention**

**19. Please provide non-confidential, simple, commercially applicable summary of Invention**

**20. Potential of the Invention** (Please describe the type of the industries which would benefit from this invention):

**21. Practical and commercial application of Invention**

**22. Corporate Interest/Potential Licensees** Please describe the type of the industries which would benefit from this invention):

- a) What industries may be interested in the invention?
- b) List any specific contacts within relevant companies.
- c) Please indicate whether you consult with any of these companies.

**23. Public Disclosure of the Invention** (Please provide details in case the invention was disclosed through any public presentation, lecture, research paper, use of prototype in public or revelation of the invention in any other form):
